**Email** - [maddhesiyaabhishek@gmail.com](mailto:maddhesiyaabhishek@gmail.com)

Motivated and results-oriented computer science specialization in Data Science student with a strong foundation in data structures and algorithms. Possessing a keen interest in problem-solving and software development, I am eager to apply my technical skills to create innovative solutions. Seeking a challenging Software Engineering Internship to contribute to a dynamic team and expand my knowledge of real-world software development.

## EDUCATION :

### Bachelor of Technology (B-Tech) in Computer Science and Engineering ( 2022-26 )

- GL Bajaj Institute of Technology and Management, Greater Noida
- CGPA || 8.0 ( till 7<sup>th</sup> sem )

### Higher Secondary Education ( 2021 )

- Saraswati Vidya Mandir, Basti
- Percentage || 88.8 %

### Higher Secondary Education ( 2019 )

- Saraswati Vidya Mandir, Basti
- Percentage || 91 %

## SKILLS :

### Technical Skills

- **Programming Languages:** C, Java, Python, JavaScript
- **Data Structures & Algorithms:** Proficient in arrays, linked lists, stacks, queues, searching, sorting, greedy algorithms
- **Problem Solving:** Strong analytical and problem-solving abilities
- **Tools:** Git (GitHub),MS Office(MS Word, Excel)

### Soft Skills

- Strong communication and interpersonal skills
- Ability to work independently and as part of a team
- Passion for learning new technologies and solving complex problems

## PROJECTS :

### Electricity Bill Splitter November 2023

- Developed a C++ program for automated splitting of electricity bills among tenants, ensuring **fair and accurate cost distribution**.
- Leveraged object-oriented programming (OOP), data structures, and algorithms to **optimize efficiency by 60%**.
- Reduced **manual errors by 40%** through structured data handling and logic-based calculations.

### Fake Review Detection And Deletion December 2024

- To identify and remove **fake reviews** from online platforms using machine learning techniques .
- Trained and evaluated **models** like Logistic Regression, Naive Bayes for binary classification.
- Engineered features like review length, user behavior patterns, and extreme sentiment indicators to enhance detection accuracy.

## CERTIFICATIONS:

- **CCNA: Data Analytics Essential (Cisco Networking Academy)** Feb 2025
  - Gained hands-on experience in data wrangling, visualization, and **exploratory data analysis** using Python.
  - Understood the **analytics lifecycle**: data collection → preprocessing → analysis → reporting.
- **NetAcad: Python Essentials 1** May 2025
  - Completed Python Essentials 1 course by **Cisco Networking Academy**, covering programming basics and syntax.
  - Learned core **Python concepts** including variables, loops, conditionals, functions, and lists.
  - **Practiced** writing clean and readable code following Python best practices.
